ALEXANDRIA DIVISION

AMERICA ONLINE, INC.

TSE

Plaintiff,

v.

DAVIS WOLFGANG HAWKE (also known as DAVE BRIDGER, and formerly known as ANDREW GREENBAUM), BRADEN M. BOURNIVAL, AMAZING INTERNET PRODUCTS, LLC, and JOHN DOES 1-50,

Defendants.

**AMERICA ONLINE'S COMPLAINT FOR VIOLATIONS OF THE FEDERAL CAN-SPAM ACT; THE VIRGINIA COMPUTER CRIMES ACT; AND THE COMMON LAW OF THE COMMONWEALTH OF VIRGINIA**

1. Between July 1, 2003 and the present, acting either alone or in concert with one another, Defendants Davis Wolfgang Hawke, Braden M. Bournival, and Amazing Internet Products, LLC, and numerous yet unidentified co-conspirators – John Does 1-50 – (“Defendants”) have transmitted or knowingly procured the transmission of millions of deceptive and unsolicited bulk electronic mail messages (“spam messages”) to America Online, Inc. (“AOL”) and its Members in violation of the CAN-SPAM Act of 2003 (effective January 1, 2004), the Virginia Computer Crimes Act (as amended effective July 1, 2003) and other laws as alleged herein.

2. Between July 1, 2003 and present, Defendants transmitted spam messages directing recipients to websites such as scaleisfriend.com; dropthephat.net; wowimslim.com; superslimshowdown.com; sizeituptoday.net; amazzing.net; imagineherexpression.net; growlargertoday.net; and itsabeast.org. to make purchases of “Pinacle” penis enlargement pills, weight loss supplements, and hand-held devices advertised as “personal lie detectors,” with such

garbled and misleading subject lines as "size really does matter qs gwwbi"; "she told me to suporsize it esfvzeq"; "Investigate your enemies! ikajljoapf"; "hi lsipje cpqnxj"; "learn how to resell zgxbbmatmkvhej zqt"; "Find out if your husband is cheating on you! qm tpls"; "investigate friends f mjtvkhngt"; and "freedom is cheap! ky."

3. On or after January 1, 2004, Defendants also transmitted spam messages advertising a product called "The Banned CD", directing recipients to send payment to one or more private mailbox locations in Pawtucket, Rhode Island or elsewhere. These spam messages contained subject lines such as "Banned in 33 countries Can I legally sell this? cwaoqypgyow"; and "I could go to JAIL for selling this CD". The message text states, in part: "I have been receiving emails saying that I'm contributing to the "moral decay of society" by selling the Banned CD. That may be, but I feel Strongly that you have a right to benefit from this hard-to-find information. So I am giving you ONE LAST CHANCE to order the Banned CD! With this powerful CD, you will be able to investigate your friends, enemies and lovers in just minutes using the Internet. You can track down old flames from college, or you can dig up some dirt on your boss to make sure you get that next promotion! Or maybe you want a fake diploma to hang on your bedroom wall. You'll find addresses for companies that make these diplomas on the Banned CD. Need to disappear fast and never look back? No problem! Using the Banned CD, you will learn how to build a completely new identity. Obviously, the Powers That Be don't want you to have the Banned CD. They have threatened me with lawsuits, fines, and even imprisonment unless I stop selling it immediately. But I feel that YOU have a Constitutional right to access this type of information, and I can't be intimidated. Uncle Sam and your creditors are horrified that I am still selling this product! There must be a price on my head!"

4. Defendants' spam messages adversely affect AOL and its Members. Just since January 1, 2004, Defendants' messages have triggered more than one hundred thousand Member complaints. Defendants' conduct also adversely affects AOL by clogging its computers and computer system, co-opting the valuable resources needed to deliver legitimate e-mails, and

causing AOL to dedicate equipment, software and personnel to block, filter, process, deliver, and store such spam messages.

5. By their actions, Defendants have violated the CAN-SPAM Act of 2003 (for conduct at January 1, 2004) and the Virginia Computer Crimes Act (Va. Code Ann. § 18.2-152.2 *et seq.*) (for conduct after July 1, 2003). Defendants have also trespassed upon AOL's personal property and have conspired with others to engage in unlawful conduct – both in violation of Virginia common law. As a result of their illegal conduct, Defendants have knowingly misappropriated advertising services on AOL's proprietary network and have been unjustly enriched at AOL's expense.

6. By this action, AOL seeks (i) an injunction to prevent further unlawful conduct; (ii) statutory damages under the Federal CAN-SPAM Act of one hundred dollars for each violation of the Act, as defined therein; (iii) statutory damages under the Virginia Computer Crimes Act to recover one dollar for each and every intended recipient of an unsolicited bulk electronic mail message where the intended recipient was an AOL Member, or \$25,000 for each day an attempt was made to transmit an unsolicited bulk electronic mail message to an AOL Member; (iv) punitive damages; (v) attorneys' fees and costs of suit; and (vi) restitution of all benefits accepted and retained by Defendants as a result of their unlawful conduct.

#### THE PARTIES

##### **America Online, Inc.**

7. AOL is a Delaware corporation with its principal place of business at 22000 AOL Way, Dulles, Virginia 20166. AOL provides a proprietary, content-based online service, which enables Members to pursue a variety of on-line activities, such as use of e-mail and access to the Internet. AOL's central computer system, which includes specialized computers (called "servers") that process e-mail messages, is located in the Commonwealth of Virginia. E-mail sent to and from AOL Members is processed through and stored on these computers. Moreover, AOL's

computers in Virginia provide the functionality and content for the AOL service provided throughout the United States and abroad.

### **Defendants**

8. The allegations of paragraphs 8, 9, 10 and 11 are made on information and belief. Defendant Davis Wolfgang Hawke's last known residence is 125 Philip Street, Medfield, Massachusetts 02052, and his last known business address is 545 Newport Avenue, Pawtucket, Rhode Island 02861. Formerly known as Andrew Greenbaum, Hawke legally changed his name in 1996 in Norfolk County, Massachusetts. Hawke has also used the alias Dave Bridger to hide his true identity in sending his spam messages, and in selling illegal bulk mailing software, in selling AOL addresses, and in soliciting others to send spam messages on his behalf.

9. Defendant Braden M. Bournival resides at 561 Montgomery Street, Manchester, New Hampshire.

10. Defendant Amazing Internet Products, LLC is a New Hampshire limited liability company, currently not in good standing. The New Hampshire Secretary of State reports Amazing Internet Products, LLC's mailing address is the same as Bournival's residence -- 561 Montgomery Street, Manchester, New Hampshire 03102, and that its registered agent for service of process was Mark A. Wright, Esq., 900 Elm Street, PO Box 326, Manchester, New Hampshire, who resigned as agent on July 29, 2003.

11. In addition to these identities, the Defendants have also used multiple non-existent corporate and personal aliases while engaging in the conduct at issue in this Complaint, including: Diversified Imports, The Phoenix Company, Quiksilver Enterprises, Erik Francoeur, and Jake Brown.

12. John Doe Defendants 1-50—whose identities are currently unknown to AOL—initiated or procured the transmission of spam messages to AOL Members for the primary purpose of advertising or promoting the sale of “Pinacle” penis enlargement pills, weight loss supplements, hand-held devices advertised to be “personal lie detectors,” and the “Banned CD” between July 1,

2003 and the present. Examples of messages transmitted or procured by Defendants are attached as Exhibit A hereto.

13. To evade detection by AOL and other email service providers, Defendants vary their transmission methods, use changing or anonymous online and offline identities, forge domain information, and create, distribute and utilize software designed to avoid filtering processes.

14. Defendants' messages attempt to disguise the senders' identities and source of their transmissions by materially falsifying the headers of the messages. For example, Defendants have initiated messages from email accounts at hotmail.com, rr.com, and other email service providers which they have no authority to use or access, or which do not exist at all. Defendants also sign up for e-mail addresses with false information, and then use those accounts to distribute spam. Defendants used these email accounts to transmit mass quantities of unsolicited bulk email and commercial email messages through the AOL system, acting either alone, in concert with one another, or with other unknown parties to commit the illegal acts alleged in AOL's Complaint.

15. AOL has received at least 100,000 complaints about messages advertising or linking to scaleisfriend.com; dropthehat.net; wowimslim.com; superslimshowdown.com; sizeituptoday.net; amazzing.net; imagincherexpression.net; growlargertoday.net; and itsabeast.org ("Domain Names"), and about messages advertising the "Banned CD" that directed recipients to mail payments to various private mailbox locations in Rhode Island and elsewhere. AOL has received many tens of thousands of complaints about other domain names and products advertised by Defendants, which share transmission techniques, methods of obfuscation and deception, IP addresses, hosting locations, or payment processors.

16. In addition to transmitting spam messages directly, Defendants have also sought to recruit others to assist them. For example, on or about August 23, 2003, the following message was communicated to one or more members of the Industry Issues bulk mailing group hosted at Yahoo.com: "Hi, I got your name from Tanya Bibeau in the Industry Issues Group. She said you were a top notch bulker, and I'm looking for high-volume mailers to sell Pinacle, an herbal male enhancement pill. . . . I pay \$20 per sale..." The message is signed by "Dave Bridger," with

an AOL Instant Messaging (“AIM”) Screen name of “BridgerDave.” Defendants using the same names and contact information transmitted similar emails on or about September 7, 2003, claiming that “Tim of the secret BulkersClub site” had provided the recipient’s name.

17. Using the same or similar contact information, Defendants also offered to provide “250 free proxies every day to [Hawke’s] affiliates” and to “pay them \$20 per sale for Pinacle, an herbal penis enlarger.” Defendants also offered “bulk friendly hosting” on servers located in China, Latin America, or other foreign countries, and offered to permit mailers to “point your domains to our server if it helps you get into specific domains like AOL.” Defendants also offered to sell millions of AOL addresses, and “cracked” bulk mailer programs such as Listmate Pro, Super Mailer, Proxy Scanner, and SuperServerPro.

18. Defendants’ messages are characterized by a variety of deceptive and fraudulent techniques calculated to camouflage their true identities, to impair AOL’s ability to filter their unsolicited bulk messages, and to impair AOL’s ability to identify, locate, or respond to the person or persons who initiated the messages.

19. Some of Defendants’ messages are addressed to email addresses obtained using an automated means that generates possible electronic mail addresses by combining names, letters and numbers in numerous permutations (“Dictionary Attacks”), or to addresses obtained using an automated means from AOL’s proprietary online service (“harvesting”), in violation of AOL’s publicly posted notices prohibiting such practices.

20. Defendants have transmitted or caused others to transmit messages advertising the Domain Names and other domains for which they registered by providing false information to the domain registering authorities.

21. Defendants entered into agreements with John Does whose products and services were being advertised to receive a commission or other compensation for sales leads or sales.

## JURISDICTION AND VENUE

22. This action arises out of, among other things, Defendants' violation of the Federal CAN-SPAM Act of 2003. The Court has subject matter jurisdiction of this action based on 28 U.S.C. §§ 1331 and 1338, and 28 U.S.C. § 1332 (diversity jurisdiction), and has supplemental jurisdiction of AOL's state law claims based on 28 U.S.C. § 1367. Pursuant to 28 U.S.C. § 1391(b), venue is proper in this judicial district. A substantial part of the events or omissions giving rise to AOL's claims, together with a substantial part of the property that is the subject of AOL's claims, are situated in this judicial district. The federal District Court for the Eastern District of Virginia has personal jurisdiction over Defendants because, by transmitting spam messages to AOL Members through AOL's computers and computer system in violation of federal and state law, they have used a computer network located in the Eastern District, have caused tortious injury in this judicial district, have regularly solicited business and engaged in a persistent course of conduct in Virginia, and have derived substantial revenue from services rendered in Virginia. Defendants directed electronic activity into Virginia with the manifest intent of engaging in business or other interactions within the State, and that activity creates in AOL a potential cause of action cognizable in the State's courts.

## **PUBLICLY POSTED PROHIBITION OF TRANSMISSION OF UBE TO AOL MEMBERS**

23. At all times relevant to this Complaint, AOL has prohibited the transmission of unsolicited bulk e-mail ("UBE") through its system to its Members. This UBE policy has been available at "aol.com" at all times relevant to this Complaint. At all times relevant to this Complaint, the policy has stated:

America Online, Inc. ("AOL") does not authorize the use of its proprietary computers and computer network (the AOL Network") to accept, transmit or distribute unsolicited bulk e-mail sent from the Internet to AOL members. In addition, Internet e-mail sent, or caused to be sent, to or through the AOL Network that makes use of or contains invalid or forged headers, invalid or non-existent domain names or other means of deceptive addressing will be deemed to be counterfeit. Any attempt to send or cause such counterfeit e-mail to be sent to or through the AOL Network is unauthorized. Similarly, e-mail that is relayed

from any third party's mail servers without the permission of that third party, or which employs similar techniques to hide or obscure the source of the e-mail, is also an unauthorized use of the AOL Network. AOL does not authorize anyone to send e-mail or cause e-mail to be sent to the AOL Network that violates AOL's Terms of Service. AOL does not authorize the harvesting or collection of screen names from the AOL service for the purpose of sending unsolicited e-mail. AOL reserves the right to take all legal and technical steps available to prevent unsolicited bulk e-mail or other unauthorized e-mail from entering, utilizing or remaining within the AOL Network. Nothing in this policy is intended to grant any right to transmit or send e-mail to, or through, the AOL Network. AOL's failure to enforce this policy in every instance in which it might have application does not amount to a waiver of AOL's rights.

#### **UBE ADVERSELY AFFECTS AOL**

24. AOL's computer system located in Virginia includes equipment that receives, processes, stores and delivers e-mail transmitted to AOL Members. AOL's e-mail system currently receives nearly 2 billion e-mail messages per day. Since 1999, AOL has installed and implemented proprietary e-mail filters for identifying and blocking UBE messages. On average, these filtering systems currently block in excess of 1 billion messages per day. This figure is ten times higher than the average daily volume being blocked as recently as 1999.

25. AOL received between 4 and 10 million Member reports of spam per day in the relevant time period. Over a three-week period in January-February 2004, AOL received at least 120,000 reports or complaints about Defendants' spam messages.

26. AOL's mail servers and UBE filters have a finite processing speed and memory storage capacity that limit AOL's ability to receive, sort, deliver and store e-mail and thus limit the rate at which e-mail can be processed. AOL's e-mail system must spend time processing e-mails to distinguish legitimate e-mail from UBE. UBE impairs the delivery of legitimate e-mail and the functioning of AOL's computer network. AOL also incurs substantial costs in handling telephone calls from Members regarding spam.

27. By advertising through UBE, Defendants have also shifted their advertising costs onto AOL. Having shifted those costs, Defendants have targeted indiscriminately as many recipients as they can possibly reach.

**COUNT I**

**(Violation of the Federal Controlling the Assault of Non-Solicited Pornography and Marketing Act of 2003—"CAN-SPAM" (15 U.S.C. § 7701 et seq.)  
(Violation of section 5(a)(1) – false or misleading transmission information)**

28. AOL repeats and re-alleges paragraphs 1-27 of this Complaint.

29. Defendants initiated or procured the transmission to AOL's protected computers, of commercial e-mail messages that contained, or were accompanied by, header information that is materially false or materially misleading.

30. Defendants initiated or procured the transmission to AOL's protected computers, of commercial e-mail messages that did not include a "From" line that accurately identified any person who transmitted or procured the transmission of the message.

31. Defendants had actual knowledge or consciously avoided knowing, whether persons initiating messages advertising their products were advertising them in violation of Section 5 of the CAN-SPAM Act.

32. Defendants' actions were willful and knowing.

33. As a result of Defendants' actions, AOL has been adversely affected in an amount to be proven at trial. For all violations of sections 5(a)(1) of the Can Spam Act of 2003, AOL seeks to recover the amount calculated by multiplying the number of violations (with each separately addressed unlawful message that is transmitted or attempted to be transmitted over AOL's protected computers treated as a separate violation) by \$100.

COUNT II

**(Violation of the Federal Controlling the Assault of Non-Solicited Pornography and Marketing Act of 2003—"CAN-SPAM" (15 U.S.C. § 7701 et seq.)**

**(Violation of section 5(a)(2), 5(a)(3), and 5(a)(5) – misleading subject headings, no functioning opt-out, no disclosure of valid physical address)**

34. AOL repeats and re-alleges the allegations of paragraphs 1 through 33 of the Complaint.

35. Defendants engaged in a pattern or practice of initiating or procuring the transmission of commercial electronic messages which contained subject headings that defendants knew, or should have known, were likely to mislead a recipient, acting reasonably under the circumstances, about a material fact regarding the contents or subject matter of the messages.

36. Defendants had actual knowledge or consciously avoided knowing whether persons initiating messages advertising their products were advertising them in violation of Section 5 of the CAN-SPAM Act.

37. Defendants engaged in a pattern or practice of initiating or procuring the transmission of commercial electronic messages which failed to contain a functioning return electronic mail address or other Internet-based mechanism, clearly and conspicuously displayed, that a recipient could use to submit a reply electronic mail message or other form of Internet-based communication requesting not to receive future commercial electronic mail messages from that sender at the electronic mail address where the message was received.

38. Defendants engaged in a pattern or practice of initiating the transmission of commercial electronic messages which failed to include a clear and conspicuous identification that the message was an advertisement or solicitation, failed to provide a clear and conspicuous notice of the opportunity to decline to receive further commercial electronic mail messages from the sender; and failed to provide a valid physical postal address of the sender.

39. Defendants' actions were willful and knowing.

40. For all violations of sections 5(a)(2), (a)(3), and (a)(5) of the CAN SPAM Act of 2003, AOL seeks to recover the amount calculated by multiplying the number of violations (with

each separately addressed unlawful message that is transmitted or attempted to be transmitted over AOL's protected computers treated as a separate violation) by \$25.

COUNT III  
COMPUTER FRAUD IN VIOLATION OF § 18.2-152.3 OF THE  
VIRGINIA COMPUTER CRIMES ACT

41. AOL repeats and re-alleges the allegations of paragraphs 1 through 40 of the Complaint.

42. In connection with its provision of online and Internet services to its Members who are citizens of the Commonwealth of Virginia and other States, AOL maintains computers and a computer network in the Commonwealth of Virginia.

43. Defendants have used AOL's computers and computer network "without authority," as that term is defined in Va. Code Ann. § 18.2-152.2, by transmitting spam in contravention of the authority granted by AOL and in violation of AOL's Unsolicited Bulk E-Mail Policy and its Terms of Service.

44. Without authority, Defendants have obtained access to and used AOL's computers and computer network with the intent to obtain the use of AOL's property and services by false pretenses, in violation of Va. Code, Ann. § 18.2-152.3, and have thus committed Computer Fraud.

45. The foregoing acts of Defendants have caused injury to AOL, AOL's computers and computer network, and to AOL's business relations, reputation and goodwill.

46. Defendants threaten to continue to engage in the unlawful transmissions complained of herein, and unless restrained and enjoined will continue to do so, impairing the services provided to AOL Members and causing AOL irreparable damage. It is difficult to ascertain the amount of compensation that could afford AOL adequate relief for Defendants' continuing unlawful acts. AOL's remedy at law is, therefore, inadequate to compensate for the injuries threatened.

47. For all Computer Fraud in violation of the Virginia Computer Crimes Act committed by Defendants after June 30, 2003, AOL seeks to recover \$1 for each and every intended recipient of an unsolicited bulk electronic mail message where the intended recipient is an AOL Member, or \$25,000 for each day an attempt is made to transmit an unsolicited bulk electronic mail message to an AOL Member.

**COUNT IV**  
**TRANSMITTING UBE WITH FALSE HEADERS**  
**IN VIOLATION OF § 18.2-152.3:1(A)(1) OF THE**  
**VIRGINIA COMPUTER CRIMES ACT**

48. AOL repeats and re-alleges the allegations of paragraphs 1 through 47 of the Complaint.

49. AOL maintains computers and computer network in the Commonwealth of Virginia through which it (i) acts as an intermediary in sending or receiving e-mail and (ii) provides its Members the ability to send or receive e-mail, and as such is an "Electronic Mail Service Provider" as defined in Va. Code Ann. § 18.2-152.2.

50. Defendants used a computer or a computer network with the intent to falsify or forge electronic mail transmission information or other routing information in connection with the transmission of unsolicited bulk electronic mail through or into AOL's computer network or its Members.

51. Defendants threaten to continue to engage in the unlawful transmissions complained of herein, and unless restrained and enjoined will continue to do so, impairing the services provided to AOL Members and causing AOL irreparable damage. It is difficult to ascertain the amount of compensation that could afford AOL adequate relief for Defendants' continuing unlawful acts. AOL's remedy at law is, therefore, inadequate to compensate for the injuries threatened.

52. For all violations under this Court of the Virginia Computer Crimes Act committed by Defendants after June 30, 2003, AOL seeks to recover \$1 for each and every intended

recipient of an unsolicited bulk electronic mail message where the intended recipient is an AOL Member, or \$25,000 for each day an attempt is made to transmit an unsolicited bulk electronic mail message to an AOL Member.

**COUNT V**

**DEALING IN FALSIFIED BULK EMAIL SOFTWARE**

**IN VIOLATION OF § 18.2-152.3:1(A)(2) OF THE VIRGINIA COMPUTER CRIMES ACT**

53. AOL repeats and re-alleges the allegations of paragraphs 1 through 52 of the Complaint.

54. Defendants knowingly sold, gave or otherwise distributed or possessed with intent to sell, give or distribute software that is primarily designed or produced for the purpose of facilitating or enabling the falsification of electronic mail transmission information or other routing information, that has only limited commercially significant purpose or use other than to facilitate or enable the falsification of electronic mail transmission information or other routing information, or that is marketed by Defendants for use in facilitating or enabling the falsification of electronic mail transmission information or other routing information.

55. Defendants' acts have caused injury to AOL, AOL's computers and computer network, and to AOL's business relations, reputation and goodwill.

56. Defendants threaten to continue to engage in the unlawful transmissions complained of herein, and unless restrained and enjoined will continue to do so, impairing the services provided to AOL Members and causing AOL irreparable damage. It is difficult to ascertain the amount of compensation that could afford AOL adequate relief for Defendants' continuing unlawful acts. AOL's remedy at law is, therefore, inadequate to compensate for the injuries threatened.

57. For each such violation of the Virginia Computer Crimes Act committed by Defendants after June 30, 2003, AOL seeks to recover \$1 for each and every intended recipient of an unsolicited bulk electronic mail message where the intended recipient is an AOL Member, or

\$25,000 for each day an attempt is made to transmit an unsolicited bulk electronic mail message to an AOL Member.

**COUNT VI**  
**THEFT OF COMPUTER SERVICES IN VIOLATION OF § 18.2-152.6 OF THE**  
**VIRGINIA COMPUTER CRIMES ACT**

58. AOL repeats and re-alleges the allegations of paragraphs 1 through 57 of the Complaint.

59. The e-mail and electronic message services AOL provides constitute "Computer Services" pursuant to Va. Code Ann. § 18.2-152.2.

60. Through their transmission of spam to AOL and its Members, Defendants have knowingly and willfully used AOL's computers and computer network without authority with intent to obtain Computer Services. Defendants' conduct constitutes Theft of Computer Services in violation of Va. Code Ann. § 18.2-152.6.

61. Defendants' acts have caused injury to AOL, AOL's computers and computer network, and to AOL's business relations, reputation and goodwill.

62. Defendants threaten to continue to engage in the unlawful transmissions complained of herein, and unless restrained and enjoined will continue to do so, impairing the services provided to AOL Members and causing AOL irreparable damage. It is difficult to ascertain the amount of compensation that could afford AOL adequate relief for Defendants' continuing unlawful acts. AOL's remedy at law is, therefore, inadequate to compensate for the injuries threatened.

63. For each such violation of the Virginia Computer Crimes Act committed by Defendants after June 30, 2003, AOL seeks to recover \$1 for each and every intended recipient of an unsolicited bulk electronic mail message where the intended recipient is an AOL Member or \$25,000 for each day an attempt is made to transmit an unsolicited bulk electronic mail message to an AOL Member.

COUNT VII  
TRESPASS TO CHATTELS  
UNDER THE COMMON LAW OF VIRGINIA

64. AOL repeats and re-alleges the allegations of paragraphs 1 through 63 of the Complaint.

65. The computers and computer network that constitute AOL's e-mail system are the personal property of AOL.

66. Without valid authorization, Defendants have intentionally and repeatedly obtained access to, and made use of, AOL's computers and computer network to transmit spam to AOL Members for their own economic benefit.

67. Through their practice and pattern of repeatedly transmitting spam through AOL's computers and computer network in high volumes, Defendants have wrongfully exercised dominion over AOL's computers and computer network in denial of AOL's rights to that property. Defendants' wrongful exercise of dominion over AOL's computers and computer network has deprived AOL and its Members of the legitimate use of this commercially valuable system.

68. Under the common law of Virginia, Defendants' conduct constitutes trespass to AOL's chattels.

69. As a result of Defendants' trespass to AOL's chattels, AOL has suffered and will continue to suffer irreparable injury, loss of reputation and pecuniary damages. AOL's damages include not only pecuniary injury, but the loss of its customers and the loss of the good will of its existing customers. Unless enjoined by this Court, Defendants will continue these acts of trespass, thereby causing AOL continuing and irreparable damage.

70. Defendants' acts of trespass have been undertaken intentionally with malice, oppression and fraud, justifying the imposition of punitive damages in amount sufficient to punish Defendants and deter Defendants and others from engaging in similar conduct.

COUNT VIII  
COMMON LAW CONSPIRACY TO COMMIT  
TRESPASS TO CHATTELS AND VIOLATE  
FEDERAL AND VIRGINIA STATUTES

71. AOL repeats and re-alleges the allegations of paragraphs 1 through 70 of the Complaint.

72. On information and belief, Defendants have conspired and combined with one another and third parties to send spam to and through AOL's computers and computer system to AOL Members. Defendants have wrongfully exercised dominion over AOL's computers and computer system, and have deprived AOL and its Members of the legitimate use of this commercially valuable system. Defendants have committed and have conspired to commit trespass to chattels under Virginia common law.

73. On information and belief, Defendants have conspired and combined with one another and third parties to intentionally exceed authorized access to AOL's Protected Computer Facilities by harvesting and collecting AOL Member e-mail addresses. This conduct has caused damage by impairing the operation of AOL's computers and computer network and by impairing AOL's provision of e-mail services to its Members. On and after January 1, 2004, Defendants have violated, and have conspired to violate, the CAN SPAM Act of 2003.

74. On information and belief, Defendants have also conspired and combined with one another and third parties to transmit spam messages to and through AOL's computers and computer network located in the Commonwealth of Virginia. Defendants have used AOL's computers and computer network without authority and with intent to (i) obtain services by false pretenses; (ii) falsify or forge transmission and/or routing information; and (iii) obtain computer services, all in violation of the Virginia Computer Crimes Act.

75. The effectuation of these conspiracies through the transmission by Defendants' co-conspirators of unauthorized bulk e-mail to and through AOL's computers and computer network has damaged AOL and its Protected Computer Facilities by impairing the

integrity and/or availability of data, programs, systems, and/or information, and has damaged AOL's business relations, reputation, and goodwill among its Members.

**COUNT IX**  
**UNJUST ENRICHMENT AND**  
**THE IMPOSITION OF A CONSTRUCTIVE TRUST IN FAVOR OF AOL**

76. AOL repeats and re-alleges the allegations of paragraphs 1 through 75 of the Complaint.

77. By transmitting spam through AOL to AOL Members, Defendants have knowingly obtained, conferred, or retained advertising-related benefits acquired at AOL's expense. Defendants' knowing acquisition of these benefits occurs under circumstances that render it inequitable for Defendants to retain the benefits without paying for their value.

78. As a result of Defendants' unjust enrichment, Defendants should be ordered to compensate AOL for the value of the services it unwillingly provided, and ordered to disgorge all profits derived from all bulk e-mailing activities. A constructive trust should also be imposed in favor of AOL on all moneys received by or due Defendants and on all profits generated by Defendants' illegal activities as a result of their bulk e-mail activities and on all real property, motor vehicles, and other personal property purchased with moneys received by Defendants as a result of their bulk e-mail activities.

**PRAYER FOR RELIEF**

**WHEREFORE**, Plaintiff AOL requests entry of judgment in its favor and against Defendants:

a. Granting preliminary and permanent injunctive relief against Defendants, their officers, agents, servants, employees, and attorneys, and upon those persons in active concert or participation with them who receive actual notice of the order by personal service or otherwise, enjoining them from directly or indirectly:

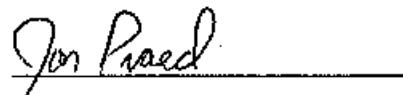

1. Sending or transmitting to any destination, or directing, aiding, or conspiring with others to send or transmit to any destination, electronic mail or electronic communication bearing any false, fraudulent, anonymous, inactive, deceptive, or invalid source, routing, or return information;
2. Using, or directing, aiding, or conspiring with others to use AOL's computers or computer networks, or the computers or computer networks of any of AOL's subsidiaries or affiliates, in any manner, directly or indirectly, in connection with the transmission or transfer of any form of electronic information across the Internet;
3. Opening, creating, obtaining access to, and/or using in any way, or directing, aiding, or conspiring with others to open, create, obtain access to, and/or use in any way, any AOL membership or account;
4. Acquiring, compiling or transferring AOL Member e-mail addresses or e-mail addresses that contain an AOL domain;
5. Sending or transmitting, or directing, aiding, facilitating or conspiring with others to send or transmit, any electronic mail message, or any electronic communication of any kind, to or through AOL or its Members;
6. Creating, registering, or maintaining any Internet services by providing false or misleading information;
7. Participating in or operating any Internet Website which offers any "click-through" or referral-revenue sharing compensation program; and
8. Hiring or retaining any employee or contractor to advertise any products or services without first obtaining and retaining on file: (i) information adequate to effect service of a legal complaint filed in a United States district court on such employee or contractor; and (ii) that employee's or contractor's signed acknowledgement that the employee or contractor has received notice of this Order,

agrees to be bound by it, and agrees to submit to the jurisdiction of this Court for any alleged violations of this Order.

Wouldn't you kill to be Bigger?

Listen... I Know you're Good-Looking...  
You probably have money  
and a nice car... But I would  
bet the house you have one that is Small to Average size.  
How do I know?...Statistics Baby! On average, men=20  
have it anywhere from 5 to 6.3 inches. And don't tell  
me you haven't measured it (cuz every guy does at some  
point) and also don't tell me you haven't lied about  
it when talking about it with the guys (cuz every  
guy has done that at some point too!).

Go to a P0rn store. How come you don't see dildos  
that are 5 or 6 inches long?? Why are they all 7,8 or=20  
even 11 inches Long??!! Its because SIZEdoesMATTER!  
Don't believe me? Then ask any girl (not your girlfriend  
because she will not want to hurt your feelings). Every girl  
will tell you a Gorilla sized Ding Dong is able to fill her  
pu\$\$y and reach her G stop just right. =20

I USED TO be small. So small I'm too embarrassed=20  
to even type it. I was like you...thinking that=20  
it was the love that counted, or that the  
amount of money I had was all that I needed...How Wrong I Was!=20  
I found that out when my wife of a year packed up=20  
her bags and divorced me, yelling as she walked out=20  
the door that I was the worst guy she had ever slept with,  
because my WANKER was too small to get her off...Whoa!

Right then and there I decided that I had to do something. But I didnt=20  
know where to look. Thats when I came across  
an email telling me that I could gain 3 inches in 3 Weeks...

Desperately wanting to try anything, I said to myself=20  
"What the heck, its cheap and who knows, it might work."...=20  
It Might Work? How about growing 3 inches in ONLY 2 weeks!=20  
Now Im the proud owner of an 8.3 inch WANKER.=20

Anyway, I just recently saw my ex-wife at our favorite=20  
hang out. She told me she still loved me and that she=20  
wanted me back. I took her to my house and her  
eyes almost popped out when I pulled down my pants. I swear she  
almost choked on it (LOL). Then I proceeded to give her the best  
orgasm shes ever had. When I was done busting on her face I told=20  
her to put her clothes on and get the hell out of my house. As she  
was walking out the door (crying) she asked me why didn't I want=20  
her back also...I replied "Baby, I have a huge (actually Gigantic)=20  
new gun thats loaded with bullets, and its hunting season!"=20

So,unless you like being small (or average), then delete this email.=20  
On the other hand if you want to be Better-Than-Average then visit=20  
the link below and try it for yourself.=20

I have been recieving emails saying that I'm=20  
contributing to the "moral decay of society"=20  
by selling the Banned CD. That may be, but=20  
I feel strongly that you have a right to=20  
benefit from this hard-to-find information.

=20  
So I am giving you ONE LAST CHANCE to order=20  
the Banned CD!

=20  
This CD is so popular, and so controversial,=20  
that eBay banned it forever!

=20  
With this powerful CD, you will be able to=20  
investigate your friends, enemies and lovers=20

track down old flames from college, or you=20  
can dig up some dirt on your boss to make=20  
sure you get that next promotion!

=20  
Or maybe you want a fake diploma to hang on=20  
your bedroom wall. You'll find addresses for=20  
companies that make these diplomas on=20

the Banned CD.

=20

Need to disappear fast and never look back?=20  
No problem! Using the Banned CD, you will=20

Plus, theBanned CD contains hundreds of=20  
programs to help small businesses grow!

=20

Obviously, the Powers That Be don't want=20  
you to buy the Banned CD. They have threatened=20  
me with lawsuits, fines, and even imprisonment=20  
unless I stop selling it immediately. But=20  
I feel that YOU have a Constitutional right=20  
to access this type of information, and I=20  
can't be intimidated.

=20

Uncle Sam and your creditors are horrified=20  
that I am still selling this product! In=20  
some countries, I could go to JAIL for selling=20

you freedom. And you can't buy freedom at your=20

Hi!

If you're like me, you've tried EVERYTHING to=20  
LOSE weiight. I know how you feel - the=20  
Special Diets, Miracle Piills, and fancy=20  
exxercise-equipment never helped me lose=20  
a poound either. It seemed like the harder=20  
I tried, the bigger I got, until I heard=20  
about something called Power Diet Plus.

You're probably thinking to yourself, "Oh geez,=20  
not another miracle diiet program!" Like you,=20  
I was skeptical at first, but my sister swore it=20  
helped her lose 23 poounds in just two weeks,=20  
so I told her I'd give it a shot. I mean, there=20  
was nothing to lose except a lot of weiight! =20  
Let me tell you, it was the best decision I've=20  
ever made. Period. Six months later, as I'm=20  
writing this message to you, I've gone from=20  
355 poounds to 210 poounds, and I haven't changed=20  
my exercise routine or the foods I eat. Yes, I still=20  
eaat pizza, and lots of it!

I was so happy with the results that I contacted=20  
the manufacturer and got permission to reseell=20

it - at a BIG discount. I want to help other=20  
people lose weight like I did, because it does=20  
so much for your self-esteem, not to mention=20  
your health. I give you my personal pledge that=20  
Power Diet Plus absolutely WILL WORK FOR YOU. =20  
If it doesn't, you can return it any time for=20  
a full refund. =20

If you are frustrated with trying other products,=20  
not having any success, and just not getting=20  
the results you were promised, then I recommend=20  
the only thing that worked for me - Power Diet Plus.

You're probably asking yourself, "Ok, so how=20  
does this stuff actually work?"

Power Diet Plus contains Lipotropic fat burners=20  
which are scientifically-proven to=20  
increase metabolism and cause rapid=20  
weight loss. No "hocus pocus" in this stuff -=20  
just results, results, results!=20

Here is the bottom line ...

I can help you lose 10-15 pounds every week=20  
naturally, without exercising and without having=20  
to eat rice cakes all day. Just try it for=20  
one month - there's nothing to lose, and=20  
everything to gain. You will lose weight=20  
fast ... That is my pledge to you. =20

Try Power Diet Plus:

hey Rochpyle,

If you're like me, you've tried EVERYTHING to=20  
LOSE weiight. I know how you feel - the=20  
special Diets, miracle piills, and fancy=20  
exxercise-equipment never helped me lose=20  
a poound either. It seemed like the harder=20  
I tried, the bigger I got, until I heard=20  
about something called Power Diiet Plus.

You're probably thinking to yourself, "Oh geez,=20  
not another miracle diiet program!" Like you,=20  
I was skeptical at first, but my sister swore it=20  
helped her lose 23 poounds in just two weeks,=20  
so I told her I'd give it a shot. I mean, there=20  
was nothing to lose except a lot of weiight! =20  
Let me tell you, it was the best decision I've=20  
ever made. Period. Six months later, as I'm=20  
writing this message to you, I've gone from=20  
355 poounds to 210 poounds, and I haven't changed=20  
my exercise routine or the foods I eat. Yes, I still=20

eaat pizza, and lots of it!

I was so happy with the results that I contacted=20  
the manufacturer and got permission to reseell=20  
it - at a BIG discount. I want to help other=20  
people lose weiight like I did, because it does=20  
so much for your self-esteem, not to mention=20  
your health. I give you my personal pledge that=20  
Power Dliet Plus absolutely WILL WORK FOR YOU. =20  
If it doesn't, you can return it any time for=20  
a full reffund. =20

If you are frustrated with trying other products,=20  
not having any success, and just not getting=20  
the ressults you were promised, then I recommend=20  
the only thing that worked for me - Power Dliet Plus.

You're probably asking yourself, "Ok, so how=20  
does this stuff actually work?"

Power Dliet Plus contains Lipotropic faat burners=20  
which are scientifically-proven to=20  
increase metabolism and cause rapid=20  
weiight loss. No "hocus pocus" in this stuff -=20  
just ressults, ressults, ressults!!=20

Here is the bottom line ...

I can help you lose 10-15 pocounds every week=20  
naturally, without exxercising and without having=20  
to eat rice cakes all day. Just try it for=20  
one month - there's nothing to lose, and=20  
everything to gain. You will lose weiight=20  
fast ... That is my pledge to you. =20

Imagine this ...

You come home from work one day and see=20  
a strange car in the driveway. A woman,=20  
half-dressed, runs out of your house and=20  
drives off. You always suspected your  
husband might be cheating, but now he=20  
can't deny it. =20

This could have been avoided ...

If you had used Handy Truster, you might=20  
have caught your partner lying to you a=20  
long time ago!

Truster is easy to use, and extremely=20  
accurate. The same technology that police=20  
agencies use to interrogate criminals  
is available to you at the lowest price=20  
ever.

How many times did you hear "I'm telling=20  
you the truth"?

How many times were you offered tempting=20  
deals?

How many times did you trust the wrong=20  
people?

Ever had that knowing feeling that someone=20  
might be lying to you? Well, stop wondering=20  
and take action. Find out for yourself=20  
with Truster!

Handy Truster enables testing real-time=20  
in a face-to-face conversation. It's=20  
easy to operate and offers 92% accuracy.

The applications for this amazing technology=20  
are limitless, but here are just a few=20  
things you will be able to do:

\*\* Find out if your husband or wife is=20  
having an affair!

\*\* Determine if your business partner is=20  
cheating you out of money!

\*\* Learn whether your in-laws are lying=20  
to you!

\*\* Find out if your friend wants to steal=20  
your lover or spouse!

\*\* Find out if telephone salesmen are=20  
telling you the truth or trying to scam=20  
you!

Truster is revolutionary technology yet=20  
extremely easy to use. Just turn it on,=20  
and ask your subject a question. The=20  
screen displays in real-time whether=20  
the response is deception.

Life is not all black and white, or truth=20  
and lie. Truster will analyze the=20  
speaker's voice and indicate the percentage=20  
chance that the subject is lying.

Here are a few examples of what Truster=20  
can do for you ...

Your friend owes you some money and says=20  
'Don't worry, the check is in the mail.' =20  
Truster is running and indicates a=20  
probable lie. =20

Your wife invites her parents to watch=20  
a play that you happen to be starring in. =20  
The next day, you ask your in-laws how=20  
they liked it. 'We loved your acting', =20  
they tell you. Truster indicates a=20

definite lie.

You drop your car off for an oil change=20  
and a tune-up, but your mechanic looks=20  
grim and says 'You need a new muffler,=20  
and some transmission work.' It's  
going to be expensive, but luckily you=20  
are running truster at the time, and it=20  
indicates an 80% chance of a lie.

Your son comes back from college to see=20  
you on father's day. He tells you he's=20  
doing very well, staying out of trouble,  
and getting excellent grades. Truster=20  
is running and suggests a 95% chance of=20  
a lie. A few moments later he says 'I=20  
love you dad.' Truster indicates "truth". =20  
Whew. Not everybody is lying all of=20  
the time!

You're probably asking yourself, "Ok,=20  
this sounds great, but HOW DOES IT WORK?"

It's simple, yet brilliant technology. =20  
The human voice has multiple features,=20  
and when a person lies, changes occur in=20  
some of these features. The sensitive=20  
Truster system can detect these changes=20  
and analyze them using highly accurate=20  
scientific-mathematical tools. This=20  
software has been tested by police and=20  
forensic experts and its reliability=20  
is proven.

Technology opens doors. Truster opens=20  
a very important door that once was locked. =20  
Behind it, hopefully, you will discover  
the truth ...
